

At Bayview Hospital the health and safety of our patients and staff are our top priority.

In light of the ongoing pandemic - COVID-19 - and as a result of the Ministry of Health & Wellness (MOH&W) confirming two cases in Barbados, Bayview Hospital will be immediately activating a restricted visitor protocol to ensure the safety and health of the vulnerable patient population.

Effective immediately we will initiate the following guidelines:

- Heightened sensitivity regarding the already standardized hygiene practices.
- Limited visitation access to the hospital facilities.
- A limit of one [1] accompanying adult during the admission and discharge of patients including surgical procedures and surgical services.
- Updates on patient recovery status will be facilitated via phone call ONLY.
- Restrictions on visits with hospital guidance.

We thank you for your understanding and the compliance with the measures we have put in place to protect the vulnerable patient population.

Let us all work together to get past this trying and sensitive time by taking care of ourselves as well as our neighbor.

If you suspect you have symptoms of COVID-19; please contact the National Hotline 536-4600.

Yours Sincerely,

Julie Reid

Hospital Administrator
